## INFORMATION

**LOCATION**—Nursery and Floral Gardens situated on the Pacific Highway, 1½ miles North of Eugene where the miniature house sits by the side of the road. Visitors always welcome.

**PLANTING SEASON**—Stock should not be transplanted until dormant in the fall. Under ordinary weather conditions, trees and shrubs can be set out after October 1st and as late in the spring as the middle of April. Fall planting is preferable as a rule, as roots form all winter and start growing early with the spring weather.

**TIME TO ORDER**—It is advisable to order early as a better selection and a more complete assortment may be had.

**GUARANTEE**—The living of trees and shrubbery is largely dependent upon conditions of soil, weather and after care beyond the nurseryman's control; therefore, we do not guarantee any stock to live after leaving the nursery in good condition. If there is any cause for complaint please advise promptly upon receipt of stock. We do however, warrant stock true to name and will replace any that proves otherwise.

**TERMS OF PAYMENT**—Our business is operated on a strictly cash basis. Customers will please forward remittance with order where immediate shipment is desired. C. O. D. orders must be accompanied by a remittance to cover one-third of the cost of the order.

OWING TO PRESENT BUSINESS CONDITIONS WE DO NOT FEEL JUSTIFIED IN ISSUING A PRICE LIST ON FRUIT AND NUT TREES TO COVER THE ENTIRE PLANTING SEASON OF 1932 AND THE SPRING OF 1933. WE, THEREFORE, KINDLY ASK YOU TO SUBMIT YOUR LIST OF REQUIREMENTS AND WE WILL FAVOR YOU WITH OUR VERY LOW FALL PRICES NOW IN EFFECT.

These sturdy Walnut Trees will make profitable orchards

### ENGLISH WALNUTS

**Vrooman Franquette Variety**—The most popular soft shell nut in the Northwest and about the only one planted commercially.

### BUDDED FILBERT TREES

The Brixnut Filbert together with its pollenizer the Hall's Giant form a combination of exceptional merit. In quality of meat, thinness of shell; absence of pellicle; certainty of crop; size; productivity; absence of blanks; in fact, in all of the qualities and qualifications of filberts. the Brixnut scores so high that its excellence is quite generally admitted.

The Barcelona Filbert is an old established variety too well known to need detailed description. This variety has been in commercial cultivation for at least 25 years in the Northwest. The varieties generally used as pollenizers for the Barcelona are the Daviana, Montebello and Creswell.

All of our filbert trees are propagated by budding which enables us to turn out stock of superior merit and root systems that cannot be equalled. Losses are almost unknown among these trees.

### BUDDED CHESTNUTS

The Fuller, Progress, Colossal and Large American Sweet are the varieties which we grow and recommend.

### PEARS

Varieties in approximate order of ripening: Bartlett, Louise, Seckel, Fall Butter, Bosc, Anjou, Winter Nellis.

### PEACHES

Varieties in approximate order of ripening: Mayflower, Hales Early, Admiral Dewey, Arp Beauty, Slappy, Rochester, Early Crawford, Charlotte, Foster, Fitzgerald, Muir, Improved Elberta, J. H. Hale, Krummel October, Tuscan and Orange Cling peaches.

### PRUNES AND PLUMS

Varieties offered in prunes: Italian, Noble French, Date, Silver and Hungarian.

Varieties offered in plums: Peach, Blue Damson, Bradshaw, Yellow Egg, Reine Claude, Santa Rosa, Satsuma.

### APRICOTS AND ALMONDS

Varieties offered in apricots: Tilton, Wenatchee and Nesmith.

In almonds, we propagate a successful local variety.

### GRAPE VINES

We offer in Blue varieties: Worden, Concord. In White: Niagara and White Concord. Also Delaware Red.

**TREE PRICES ARE DOWN  
LAND AND LABOR COSTS ARE DOWN  
NOW IS THE LOGICAL TIME  
TO PLANT**

### APPLES

Varieties in approximate order of ripening: Red Astrachan, Yellow Transparent, New Red Gravenstein, King, Stewart, Grimes Golden, Jonathan, Northern Spy, Winter Banana, New Red Delicious, Ortley, Golden Sweet, Baldwin, Spitzenburg, Vanderpool Red, Yellow Delicious, Yellow Newtown, Red Siberian, Transcendent and Whitney Crab Apples.

### CHERRIES

Sweet varieties: Royal Ann, Waterhouse, Black Republican, Ox Heart, Bing and Lambert.

We make the claim that our Royal Anns with its true mate pollenizer offers the highest fruit production of anything now on the market. In a 20 year test under the personal observation of the present owner, the parent tree of our stock has yielded from 8 to 17 orchard boxes of fruit per year, with no failures. You can readily believe that an entire orchard bearing such heavy annual crops would be very profitable.

We offer the following varieties of sour cherries: Kentish, May Duke, Montmorency Large and Late Duke.

### GOOSEBERRIES and CURRANTS

In Currants we offer the pure strain Perfection variety and in Gooseberry we have the Oregon Champion.

### Disclaimer

We exercise the greatest care in delivering first-class true-to-name nursery stock, and hold ourselves in readiness to replace when proven otherwise. But at no time will we be liable for an amount greater than the original price. All orders taken with the understanding same shall be void should injury befall the stock from flood, drought, fire, frost, or other causes beyond our control.

### BROAD LEAVED EVERGREEN TREES AND SHRUBS

**Abelia**—Delicate pink flowers in fall. 2 to 3 feet 40 to 50c each.

**Aralia, Japonica**—Like rubber plants. Sturdy 3 year. 50c.

**Arbutus Unedo, Strawberry Tree**—18 to 30 inch. 50 to 75c each.

**Filberts Are Always a Sure Paying Crop**

This budded Brixmnt Filbert Tree shown at the right in its fifth season of growth is a very good representation for size and shape of what may be expected from an orchard of this age, grown on good soil.

**Aucuba, Gold Dust Laurel**—Dark glossy leaves spotted yellow. 15 to 20 inch 50c. Smaller plants 25c each.

**Azaleas, Japan**—Dwarf habit. Fine for rockeries. Bright scarlet and salmon pink. 2 year 35c, 3 year 65c.

#### BARBERRY—

**Darwini**—Orange yellow flowers, purple berries. All sizes 35, 50 and 75c each.

**Dulcis Nana**—Dwarf box leaved type with yellow flowers. 3 and 4 year size 35 and 50c.

**Wilson's**—Takes on wonderful autumn tints in foliage and berry. 3 year 35c, 4 year 50c.

**Boxwood**—Well known small leaved evergreen. Dwarf and standard types of growth. 15c, 35c, 50c and up.

**Bush Honeysuckle**—Small, brilliant glossy leaves. 1 year 15c; 2 year 25c; larger at 35 to 75c.

**Camellia**—Shining waxy leaves. Flowers in pink, red and white. 75c to \$1.50.

**Choisya, Mexican Orange**—Glossy foliage, white flowers. Bushy 15 to 24 inch 50 to 75c.

#### COTONEASTER—

**Franchetti**—Graceful droopy habit, masses of berries in winter. Fine bushy plants 35 to 50 and 75c each.

**Heroviana**—New variety, handsome foliage, enormous quantities of berries. Bushy plants 2 to 3 feet, 50c.

**Horizontalis**—Red berried trailing shrub. 2 year plants 25c. 3 and 4 year 50 to 65c.

**Humafusa**—Most prostrate of trailing types. Red berries. 12 to 15 inch 50c.

**Microphylla**—Trailing growth. Good for rock work. 2 year 25c. 3 and 4 year 50 and 65c.

**Salicifolia**—Willow leaved type. Graceful habit. 2 to 3 feet, 50c.

**Daphne Cneorum**—Dwarf in growth. Very fragrant deep pink flowers. 3 and 4 year plants 50 to 75c each.

**Daphne Odora**—Dark green leaves, wax-like pink flowers in early spring. \$1 and up.

**Euonymus, Japan**—Shiny dark green leaves. 18 to 24 inch, 40c.

**Heather, Ericas**—Low growing compact shrub, lovely pink flowers. Summer and winter blooming varieties. 35 and 50c each.

**Holly, English and French**—Tall and upright, crisp green foliage. Red berries. 75c; \$1; \$1.50 and up.

**Kalmia, Mountain Laurel**—Calico bush. Delicate tinged pink flowers. \$1.

**Laurel, English**—Large shiny leaves, rapid grower. Fine for hedges or as specimen plants. 1 year size 15c, 2 year 25c and larger at 50c to 75c each.

**Laurel, Portugal**—Dark green leathery foliage, creamy white flowers. 12 to 15 inch 50c; 18 to 24 inch 75c.

## PRICES REDUCED TO NEW LEVELS

**Lauristinns**—Dark green leaves, flowers white tinted pink. Blooms late winter and spring. 18 to 24 inch 75c.

**Magnolia Grand**—Tree that grows in the Southern states. Large, sweet scented white blooms, 2 to 6 feet, 75c to \$3.

### MYRTLE—

**English**—Clean glossy foliage, fragrant white flowers. Strong bushy plants 35 to 50c.

**Oregon Native**—Our well known and beautiful Coos Bay Myrtle. Fine for lawn specimen. Prices on application.

**Nandina (Heavenly Bamboo)**—White flowers, red berries; leaves turn red in fall. 35 to 50c.

**Pernettya**—South American Huckleberry. Dwarf growth. Pink or white berries. 12 inch 50c.

### PRIVIT (Ligustrum)—

**Lucidum or Wax Leaved type**—Dark rich green foliage. White flowers. 18 to 24 inch, 50c.

**Golden Privit**—Very effective to add color to plantings. 2 to 5 feet. 35 to 50 and 75c.

**Photinia**—Handsome shrub and is conspicuous in the fall when foliage assumes reddish hue. Flowers white in large corymbs. Small plants 35c.

**Pyracantha (Firethorn)**—Very effective for training against walls or lattice. Several fine varieties producing berries of scarlet, orange-crimson and golden yellow. 18 to 24 inch 50c; 2 to 3 feet 75c.

**Veronica**—Small shrubs of upright compact habit. Flowers white. Hecctori, Erecta and Cupressoides are the best varieties. 35 to 50c.

## CONIFER—EVERGREEN TREES

### ARBOR VITAE (Thuya)—

**American Pyramidal**—Highly ornamental rich green foliage, slender growth. 18 to 24 inch 50c; 24 to 30 inch 75c. 30 to 36 inch \$1; 36 to 42 inch \$1.25; 42 to 48 inch \$1.50.

**Breckman's Dwarf Golden**—Very useful for color effect and habit of growth. 6 to 8 inch 50c; 8 to 12 inch 75c.

**Oriental Bonita**—Rich dark green, broad cone-shape. Seldom exceeds 5 feet in height. 15 to 18 inch 75c.

**Oriental Daly Nana**—A good dwarf form, bright green in color. 15 to 18 inch 75c.

**Tom Thumb**—Very dwarf growth. Fine for rockeries and around pools. 75c.

## LANDSCAPE DEPARTMENT

Best results are obtained in landscape work where experienced men exercise their skill to attain an artistic arrangement of choice trees and plants. We are always glad to offer suggestions without charge to intending purchasers, but where landscape problems require plans and specifications, a service charge will be made.

Our prices on landscape work are based entirely on the customer's wishes as to the variety and amount of shrubs they prefer so that one can feel free to put in the kind of planting they require. We extend you the privilege of visiting our nursery where all plants can be seen and selected to your satisfaction. We have all sizes and prices to choose from which will enable you to beautify your homes at a cost which is satisfactory to all.
